

Friday 17 December

Dear parents and carers,

I need to make sure you are all aware of the process if a student of CSC, who has been on-site on Thursday 16 December or Friday 17 December, tests positive for COVID-19 in the next few days.

If your child develops symptoms over the weekend, is subsequently tested and receives a positive result **and** has been on-site on Thursday and/or Friday, please notify the college via email:

Castlemaine.sc@education.vic.gov.au.

We will be monitoring emails to this address throughout the holidays.

As a college we have an obligation to identify and inform families of any students who are deemed close contacts, as we have done previously.

If your child develops symptoms and subsequently test positive from Monday 20 December, you are not required to inform the college as they will not be considered to have been infectious during school time.

I hope you are all able to take a break these holidays. Stay safe and well and I wish you all a merry Christmas and happy new year.

Regards,

Simon Wood
Acting Principal – Castlemaine Secondary College
